# THE FOUR ELEMENTS —

The avant-garde of the Cleaf's melamine faced panels collection is given by the exceptional care in the combination of decorative and texture, as well as the depth of the latter.

The Sablé surface is created using elaborately treated sheets. The skillfully handcrafted brushed effect is typical of wood surfaces. It is combined with the decorative surfaces Lerici, Modena, Palladio.

ENGADINA  
S061

Warm and refined with a vintage feel, Engadina is a reinterpretation of rustic wood. This retro-style option is consistent with Cleaf's distinctive reinterpreting of traditionally inspired aesthetic modules.

This surface has a strong personality and takes Po Valley oak as its reference, with strong and deep markings. The selected colours enable Sherwood to fit in well with both classic and contemporary spaces, furniture, boiserie and fittings.
