Simplicity *Luxury*

ASB-9155

The solemn and harmonious cabinet design is full of natural and freehand life. The simple beauty of the product, breaking the sense of heaviness and oppression, is the finishing touch to the beauty of the bathroom space. In the storage design and matching, it leaves more room and space to play.

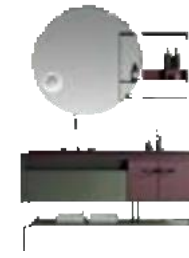

When quietly facing each other, when looking at each other, when elegant but peaceful, the vibrant color instantly erases the sense of distance brought by high-grade gray, making the whole space full of nature and agility and comfort. Break the monotony of bathroom cabinets, and inject smart interest and vitality into bathroom cabinets.

**Demonstrate Aristocratic
Temperament**

The retro red and green colors maintain perfect unity and harmony in a comfortable atmosphere, adding a bit of aristocratic temperament to the bathroom.

ASB-9165

Add a prominent but unobtrusive red to the green, pursuing the balance of proportion and the beauty of form.

ASB-9166

A reasonably designed storage system can store all kinds of living things, even if the bathroom space is limited, it can be retracted and put freely. Store bottles and cans, convenient for daily use. Tidy and uniform, isolated from humid environments.

ASB-9167

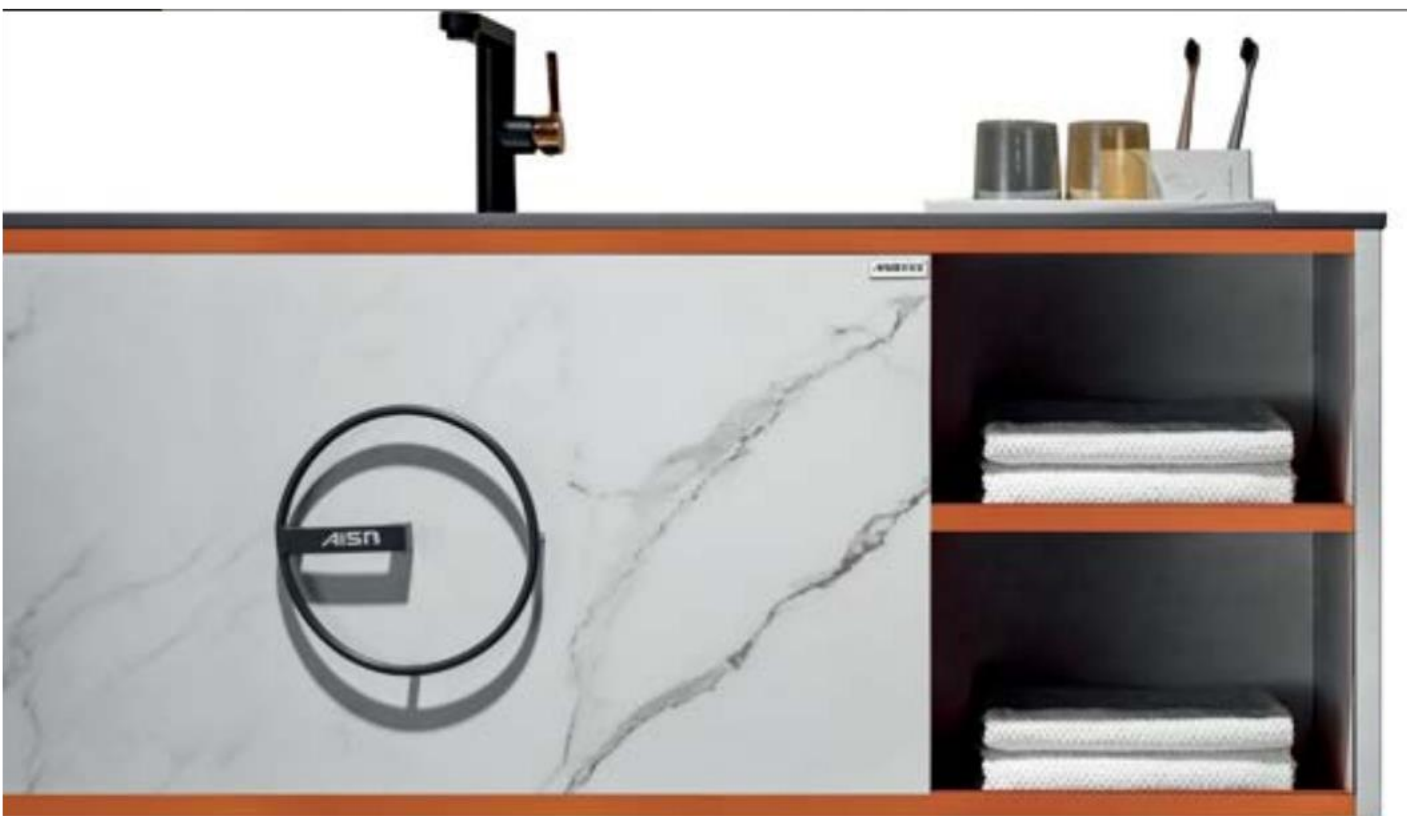

Beautiful Practical

The artistic conception of the product does not need to be over-created. Under the collision of free brushstrokes and colors, the aesthetic and pragmatic breath has been blown onto the face.

Design the bathroom as an individual space and build special atmosphere for the living space, with much more elegance and sincerity. This is what the modern citizens pursue in the world flooded with high quality products everywhere. An elegant presentation of points, lines and planes is a full demonstration of a classic life. The concise design is not only an assurance for practicality and maturity of functions but also an expression of fashion.

The seemingly simple craftsmanship and materials can also have the beauty and depth of the design, and contain the tension of advance and retreat.

Bauhaus *Style*

ASB-9106

133

Bauhaus is the coexistence of aesthetic concept and technical power, achieving the unity of form and concept. In fact, it is another name for modernism. It should be said to be a trend, not a style in the full sense.

ASB-9198

The new day begins with washing, facing the mirror, from the blink of an eye to the rejuvenation of the whole process. If you are reborn, you can soothe your daily life. In addition to the simplest way to welcome new people, the beginning of everyday life is full of vitality.

ASB-9107

ASB-9108

The elements and colors of the design are simplified to the minimum, but the requirements for the texture and craftsmanship of the materials are very high. It does not have the luxury and high-profile of European style, nor the sophisticated and dignified Chinese style. Instead, it simplifies the design elements, colors, and details in the decoration, paying attention to the texture of the material and the fashion sense of the shape, creating a luxurious high-level sense.
