TAKE A PEEK INTO OUR PROCESS

step-by-step

WE START...

In the same way. Always. Asking a million questions, finding out about you. Your wants and your needs, your loves and your hates. Your lifestyle. We're learning what's meaningful to you, and what you want your home or office to say about you.

THEN, WE BEGIN OUR DESIGN PROCESS. FIRST...

We develop your initial schematic designs to help you visualize your new interiors.

THEN...

We create construction documents. Why? Because these drawings inform crafts people, trades people and contractors of how exactly to build out your interiors.

NEXT...

We design your palette. Why? By creating the vision, by setting the stage, by giving you a glimpse of: your materials, finishes and colors, your millwork, custom cabinetry and much more, you're seeing what your interiors will look like, and equally important, what they'll feel like.

AND THEN...

We finalize all the drawings, all the layouts, all the custom finishes and all the details (details and details).

FOLLOWED BY YOU, GIVING YOUR APPROVAL. AND WE MOVE TO...

Purchasing. Ordering, shipping, receiving...and inspecting. Because when something arrives broken we're there to take care of it.

CONCURRENT TO THIS IS CONSTRUCTION. WHERE WE ARE YOUR...

Project manager. Overseeing and coordinating your process from construction, electrical, plumbing, lighting installation, AV, landscaping, and every other imaginable facet of construction. From the ground up we're keeping an eye on your "punch list," constantly reviewing and updating it, always ensuring that everything is being done correctly and beautifully.

SIMULTANEOUSLY, WE ARE...

Uploading. Photos and videos of the construction process. You'll see your home or your office taking shape before your eyes.

WHILE ALSO, WE ARE...

Our staging installation process where we get everything in our warehouse, inspected, organized, and ready for installation.

YES, WE SAID IT...

Installation. We show up with truckloads of your goodies. We take care of all the big heavy lifting. Since we measured every possible angle, height, width and depth, we're sure that your sofa's going to fit in the elevator. (And oh, that hand-carved, antique armoire we had shipped from Indonesia? We're sure it will fit through your front door—in one piece.)

FINALLY...

The Big Reveal. We've met your every need so that you can simply walk in and live your life. And your lifestyle.

WHY WE DID IT? BECAUSE WE LOVE...

CLIENTS

We have built a reputation on achieving highly individual results for a discerning, international clientele.
